**Monday, November 13, 2023**  
10 a.m. & 12:15 p.m.

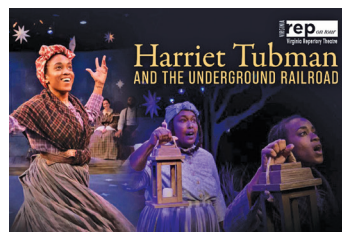

So much science, so little time... Doktor Kaboom is having trouble picking his favorite science demonstrations, so he's bringing them all! Unfortunately, there are way too many to do them all in one show. The solution: The Wheel of Science! Doktor Kaboom has built a great big spinning wheel and labeled it with everything from optical illusions to chemical reactions to a homemade hovercraft, and more! At least a dozen fantastic demonstrations ready to go. Wherever the wheel stops, that's what's next! Will we turn a water bottle into a rocket or catapult bananas across the stage? Electrocute a pickle or create artificial gravity? Who knows? No two shows will be the same. So, step right up, and let's spin that wheel!

An educational, fun and comical experience. One hour in length.

Poor Jack, he's got to use his wits to save himself from the terrible Giant, but a host of familiar fairytale characters keep messing up his plans — and then there's that annoying Stinky Cheese Man! *The Stinky Cheese Man and Other Fairly Stupid Tales* deconstructs the tradition of the fairy tale. Nothing is quite the same as you remember it.

**THE BOY WHO CRIED WOLF**

**Wednesday, February 28, 2024**  
10 a.m. & 12:15 p.m.

Written by playwright Mike Kenny and inspired by Aesop's famous fable, this is a beautiful wintery tale about a boy who learns that "nobody believes a liar, even when they're telling the truth." A gifted ensemble of actor musicians play instruments and sing live as they embody all the delightful characters, including hilarious sheep and perhaps a scary wolf or two... All set in a village of knitters with fingers flicking, needles clicking and where every new jumper tells a tale! Ultimately, Silas finds a place for himself (and his imagination) in his warm woolly community.

Play with music and song. One hour in length. Recommended: Grades PreK-5.  
Fine Arts, Language Arts, Science, Emotional/Social Development.
